Portfolio reflections/description pages				x	
Contact page				x	
Reflections (description of portfolio pieces)					

			x		
Content of reflections appropriate			x		
Project images are high quality			x		
Spelling and grammar are correct				x	

What was your overall first impression of the website?

Has a modern look but no uniqueness to the individual it is representing.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

None

Note: It is odd to have a mix of the scrolling nav with projects but then separate pages for contact and about me, normally you stick with one.

What do you feel are the most effective design elements of this web portfolio?

Clean and modern design

What would you suggest be changed with the design or content of this web portfolio?

Make it more unique to you instead of just sticking with a traditional, modern layout. You have some padding issues with your nav when responsive. You should consider the note above about fixing how you have the scroll effect for part of the nav and then separate page navigation for the others.
